Professional Diploma in International Air Ticketing & Air Cargo (IATA / FIATA) Geneva, Switzerland | 2000 |

Diploma in Air Transportation & Reservations Al-Zoman Institute for Commercial Aviation | 1999 |

High School Diploma (Physics & Mathematics) Badr Advanced High School | 1997 |

Continuous Professional Development

- Multiple training courses in Effective Communication and Relationship Building (2018).
- Microsoft Office Applications and Windows Certification – New Horizons Institute (1996).

Professional Experience

Operations & Digital Transformation Specialist | Freelance | Jeddah, Saudi Arabia | 2022 – Present |

- Utilized Prompt Engineering techniques and Generative Artificial Intelligence tools to automate administrative workflows, contributing to increased productivity and reducing the time required to complete daily tasks.
- Designed and developed visual identities and innovative digital advertising materials for clients using Adobe Photoshop, leading to increased digital engagement and stronger brand awareness.
- Managed design and content creation projects independently, from planning and requirements gathering through final delivery, while maintaining strict adherence to project timelines and digital quality standards.

Business Operations, Procurement & Sales Specialist

Zowar Al-Jazeera Trading Company | 2020 – 2022 | Jeddah, Saudi Arabia

- Managed the complete sales and procurement cycle digitally through electronic systems, improving procurement efficiency, supply chain performance, and accurate market demand fulfillment.
- Expanded the customer base by **35%** through developing sustainable strategic relationships with suppliers and customers while implementing innovative digital sales strategies.
- Analyzed operational and financial data and prepared accurate periodic sales reports for senior management through CRM systems to support decision-making and improve sales forecasting accuracy.

Sales, Procurement & Operations Coordination Supervisor (Career Progression)

Bahssan Trading Co. | 2007 – 2010 | Jeddah, Saudi Arabia

- Coordinated workflows among sales, procurement, marketing, and accounting support departments to ensure smooth daily operations and eliminate operational bottlenecks.
- Managed international procurement and supply chain activities, including import documentation, supplier coordination in China, Thailand, and Syria, shipment follow-up, and logistics clearance.
- Supervised inventory management, sales operations, and operational and financial records through POS systems, contributing to waste reduction and continuous supply availability.

Reservations & Travel Operations Officer

Emirates Airlines / Saudi Travel & Tourism Offices (Multiple Offices) | 2000 – 2003 | Jeddah, S.A.

- Operated digital airline reservation systems and issued travel documents accurately and professionally in accordance with IATA standards and procedures.
- Delivered advanced customer support services while managing complex financial and logistical coordination with international airlines.

Professional Skills

Artificial Intelligence & Generative Technologies

- Full proficiency in Prompt Engineering and business process development through Workflow Automation, in addition to Natural Language Processing (NLP) and AI-powered content creation to accelerate productivity and improve operational efficiency.

Digital Design & Visual Solutions

- Excellent experience in visual identity design and digital advertising production using Adobe Photoshop, as well as developing interfaces and visual elements that support business and commercial brand growth.

Systems Management & Digital Analytics

- Advanced capability in managing CRM data, operating sales and POS systems, and analyzing operational and financial records to produce decision-support reports.

Operations & Supply Chain Management

- Extensive experience in planning and managing daily operations, developing integrated sales strategies (B2B/C2B), executing international procurement transactions, and supervising supply chain, shipping, and logistics operations with international suppliers.

Languages

- **Arabic:** Native language (Fluent in speaking and writing).
- **English:** Advanced proficiency in professional work environments, technical and business correspondence, and negotiations.
